

Notice of Establishment of Liaison Office in Nepal

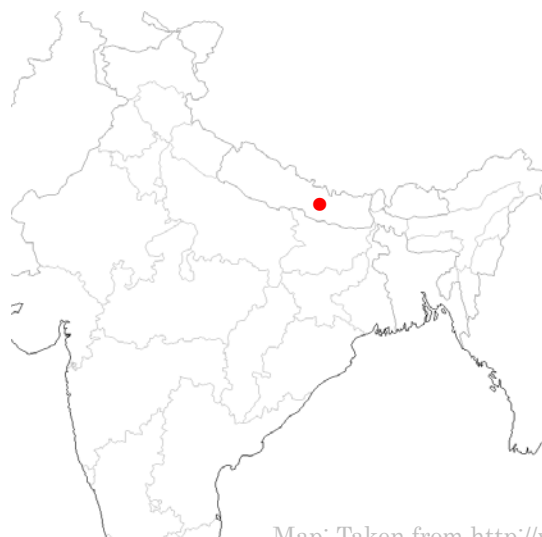

NIPRO CORPORATION is pleased to announce that one of its consolidated subsidiaries, Nipro Asia Pte. Ltd. (Head office: Singapore, President: Seigo Tsuchiya), has established a regional liaison office in Kathmandu, the capital city of Nepal.

Nepal is currently working to reform its healthcare system for the country's roughly 30 million citizens, including by introducing free dialysis treatment. Further market development is also expected in the future. For over 10 years, Nipro Asia has been dedicated to selling NIPRO-brand medical devices through its distributors. This liaison office in Kathmandu—home to the largest market in the region—will provide an opportunity to quickly recognize market needs in the region and ensure sustainable growth.

Nipro Asia hopes to expand its business activities currently being promoted in Nepal through this new office.
