New Year's Message from President Sano of Nipro Corporation
Delivered January 5, 2016

At the New Year's morning assembly held on January 5(Tue), 2016, Yoshihiko Sano, president of Nipro Corporation, delivered his new years' message for 2016, summarized below:

(Summary)

Developing New Technologies to Enhance Product Competitiveness

Last year, with the aim of achieving consolidated sales targets of 500 billion yen by fiscal 2020 and 1 trillion yen by fiscal 2030, the Nipro Group devoted itself to its business activities, upholding these slogans: "World's leading safety measures in hospitals and other medical settings," and "Zero defects".

This year, we are determined to continue working toward these goals. Moreover, we will focus on the following objectives in order to develop new technologies that enhance the competitiveness of our products.

- Gather all the Nipro Group's strengths to identify user needs
- Obtain technical information from all over the world and innovate suitable applications for it
- Make hypotheses and work to develop new technologies
- Formulate and promote business plans concerning new technologies
- Develop new technologies that meet user needs and obtain patents on the
